

# VMware-Powered Cloud Solutions Managed by ServerCentral Turing Group

Get managed, VMware-powered infrastructure supported by experts 24/7

## Balance Cost and Performance

SCTG Managed Cloud Solutions, powered by VMware, deliver the balance between cost and performance your business needs to meet today's dynamic operating environments.

## About SCTG

ServerCentral Turing Group has been a trusted provider of colocation, cloud, and disaster recovery services for SMBs and Fortune 500s since 2000.

 vmware®

Principal Partner

Cloud  
Provider

## Key Features

- **Managed VM Migration**
  - Physical-to-virtual and virtual-to-virtual migrations are handled with minimal downtime and full transaction integrity
- **Native VMware Management Console**
  - Cloud admins have direct access to the VMware interface they already know:
    - ◇ Private cloud customers access VMware vCenter
    - ◇ Public cloud customers access VMware vCloud Director
- **Enterprise-Grade Architecture**
  - 100% uptime SLAs for cloud network, server, data storage, and cloud portal
  - Seamless scalability across network, memory, compute and storage
  - High-availability architecture implementation
- **Compute, Storage, & Network**
  - Dell- and SuperMicro-based compute
  - Nimble-based SAN and Cloudian-based object storage with Amazon S3 compatibility
  - VMware, Juniper, and Ciena-based networking
- **Security, Monitoring, & Management**
  - Native VMware security augmented with redundant firewalls
  - 24x7 monitoring by SCTG's Service Desk
  - 24x7 management by SCTG's VMware-certified cloud architects
  - Comprehensive logging
- **Data Centers & Connectivity**
  - Public cloud deployment zones:
    - ◇ Chicago, Illinois
    - ◇ San Jose, California
    - ◇ Ashburn, Virginia
  - Private cloud deployment zones:
    - ◇ Elk Grove Village, Illinois
    - ◇ Chicago, Illinois
    - ◇ Ashburn, Virginia
    - ◇ San Jose, California
    - ◇ Frankfurt, Germany
    - ◇ Amsterdam, Netherlands
    - ◇ London, England
    - ◇ Tokyo, Japan
    - ◇ Sydney, Australia
    - ◇ São Paulo, Brazil
  - Direct connectivity between SCTG's Managed Clouds and existing VMware deployments via a global, native IPv4/IPv6 network

## Key Benefits

- **Optimized IT & IT Investments**
  - No capital expense outlays
  - Reduced acquisition and ongoing management costs
  - Unmatched flexibility to expand and contract server and system licensing
  - Immediate ROI via comprehensive, custom environment delivery in hours or days vs. weeks or months
  - Your existing IT staff can focus on higher-order projects – applications and your business – not infrastructure
- **Advisory Support**
  - Get advice from experienced VMware-certified cloud architects so you're certain you have the cloud you need for today and tomorrow
  - Think VMware, with butlers
- **24/7 Support**
  - Expert support is provided around the clock at no extra cost
  - We can talk over the phone, email, or video chat
- **Business Continuity & Disaster Recovery (BCDR) Planning**
  - We work with your team to determine how to best address your BCDR requirements with our backup, replication, and disaster recovery solutions

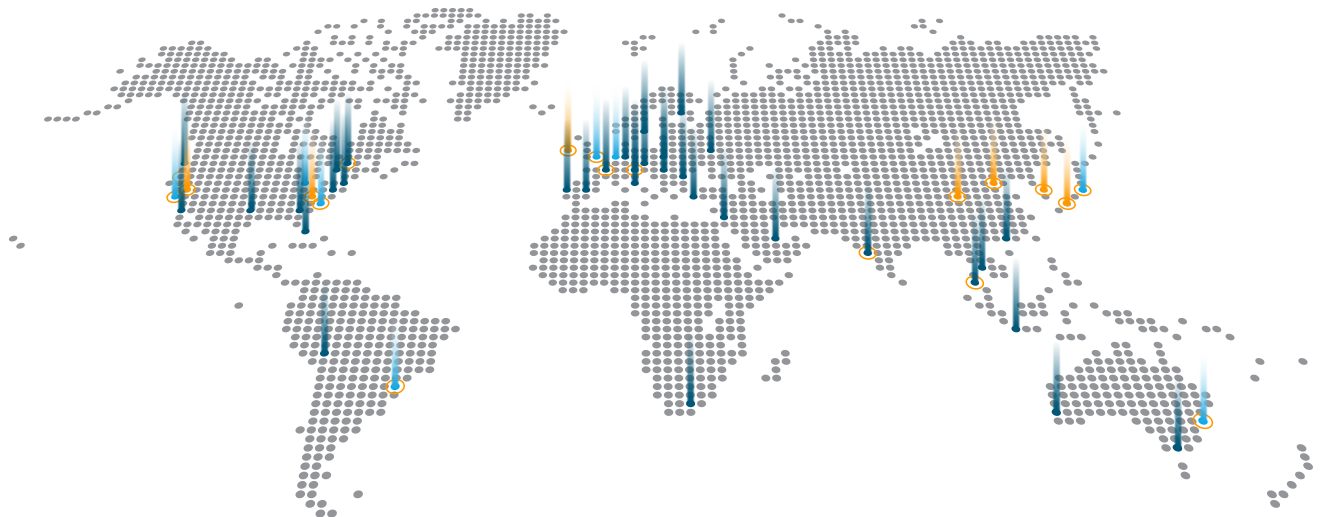

## Investment Flexibility

Your business and technology needs will change over time. That's why SCTG is proud to let all customers shift their spend between SCTG services — dollar for dollar — without any fees.

## We Are Not One-Size-Fits-All

Every SCTG Managed Cloud is configured specifically for your business. Whether that's a public, private, or hybrid architecture, we'll work with you to build the best possible solution. We'll also provide clear and concise pricing so there are no surprises.
